

What is DRAFT all about?

DRAFT is a digital hub for sports and gaming culture — unfiltered stories about the athletes, gamers, and moments you love, told by the fans who live it. We blend the game with the style, attitude, and personalities behind it, creating a space where fans feel at home.

Why the name “DRAFT”?

In sports, a draft is where the next stars are chosen. In writing, a draft is the raw, first version of a story — unpolished, real, and full of potential. Our name combines both: the thrill of spotting talent early, and the authenticity of stories told before they’re edited down.

Inspiration & story behind it

We wanted a platform that treats sports and gaming like culture, not just competition — with the same edge, style, and storytelling usually reserved for fashion or music. *DRAFT* was born out of a love for the game, the personalities, and the communities that make them unforgettable.

Brand Guidelines 01

About Us

DRAFT is a bold, digital hub serving up stylish, unfiltered stories about the athletes and gamers you love — by fans, for fans. Built for those who live for the game and the personalities behind it, DRAFT connects sports culture with style, attitude, and community.
